### **INCLUSIVE DEVELOPMENT : A Way Ahead . . .**

Inclusive development is most needed topic in today's context because many still stand excluded due to the systematic socio-political and cultural oppression. Development concentrates on the upliftment of society and the people living in it, considering this the students forum, CASCADE has initiated the conference.

The conference will enhance the knowledge about inclusion of stakeholders and various problems faced by them and the solution to the pertaining issues.

### **INCLUSIVE CULTURAL**

Inclusiveness itself is an art of accepting each and every one showing that each individual matter irrespective of the perceived standards, the evident race, class, caste and creed.

The inclusive cultural will be a stage to portray those beautiful forgotten art forms to refresh the minds with history, issues and solutions. For inclusion is not making people fit into a society but it is about creating a better world for everyone by the simple act of stating that what they do also matters. And this initiative is a small step to bringing in the cultural change.
