Movie Screening – The Startup Kids

Event No: 8

Date: 25.01.23

Time: 10 am – 11:30 am

Venue: Incubation Centre

Faculty Organiser: Prof Agnes Roshini

Student Organiser: Ms V Sarvashree

Documented by: Ms Taj rasha

Total Participants: 30

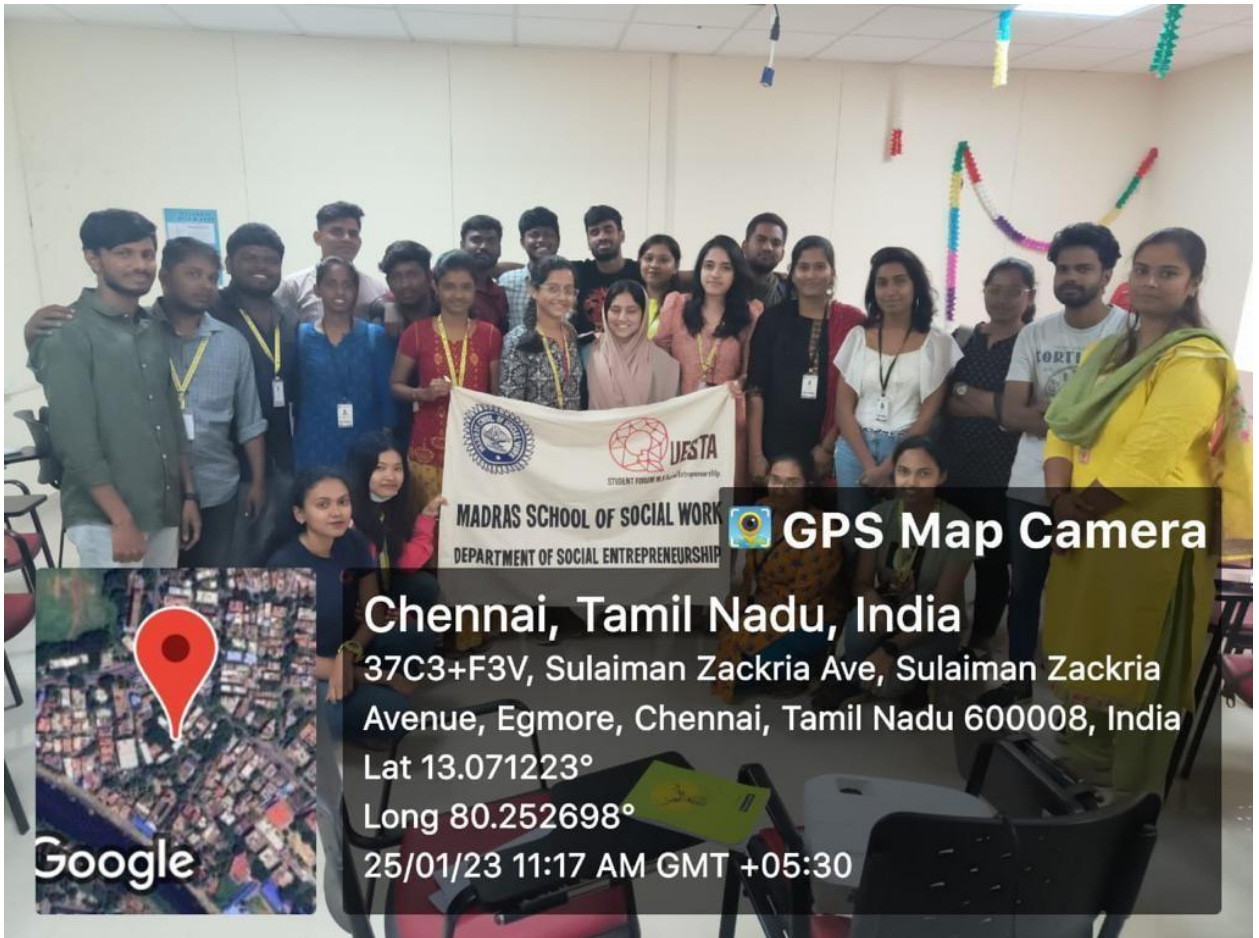

Organised by: QUESTA forum

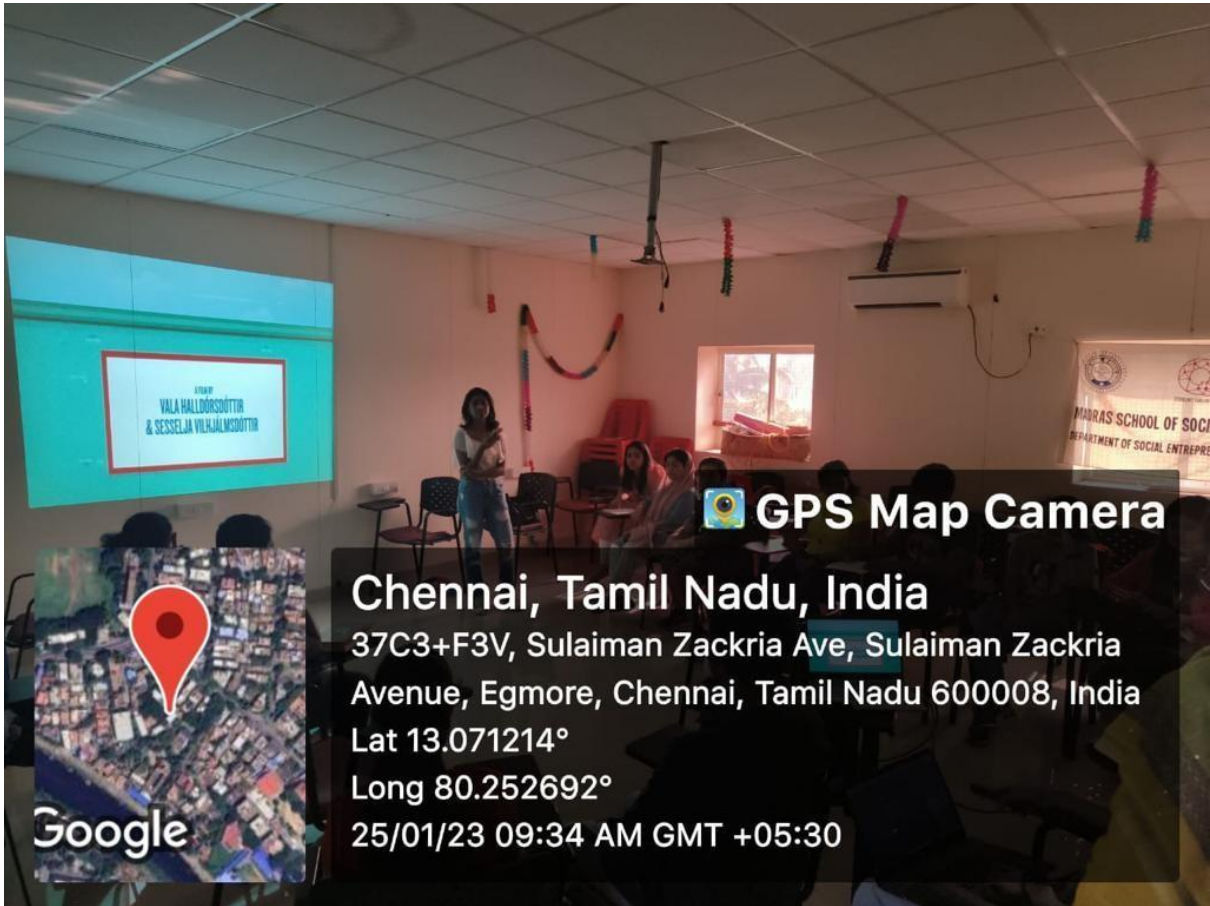

Shrisha of IInd Year MASE started a programme with a general introduction about the movie, The Startup Kids. The movie is a documentary about young web entrepreneurs in the U.S. and Europe. It contains interviews with the founders of Vimeo, Soundcloud, Kiip, InDinero, Dropbox, Foodspotting and many others who talk about how they started their company and their lives as an entrepreneur.

The objective of the programme was to encourage students to pay attention and learn from the lessons learnt by young entrepreneurs who started to become very successful. The movie was paused every 30 minutes to check in with the students and discuss their understanding and learnings.

The nearly 2 hour session ended with a reflection/discussion among the students to discuss in depth about what their key takeaway from the movie was and how they can apply it to their own journeys. No further details about the session were provided.

Conclusion:

The movie showcased interviews with successful young web entrepreneurs and aimed to inspire and educate the students about entrepreneurship. The session was interactive, with regular pauses to discuss understanding and learnings, and ended with a reflection/discussion among the students to apply the lessons to their own journeys. However, no further details such as the date or location of the programme were provided.
